Dear Com,
As we are well aware that the ERP Project has already gone live in STR Circe. The Karnataka Telecom Circle is the next circle (first Territorial Circle) proposed for going LIVE. We may have hold the discussions with the CGMT regarding the preparations. Our previous experience with CDR is not encouraging as far as smooth transition is concerned. The correctness of the data is very vital for smooth transition. At present our data which is available in GM Offices let alone Circle Office/Corp Office is 100% correct. We may not achieve 100% correctness but at least we can try to achieve at least say 75%. Thus reducing the hurdles to that extent. All our field units(DSs) may be informed to verify the correctness of the data for their SSAs.
I am enclosing letter from Corp Office in this regard. Kindly go through.
